Mr. Robert Richards
Copley
National Building
Washington, D.C.

Dear Mr. Richards:

Thanks for your kind message on May 1st which was received on May 1st.

Three days later I also received a letter from General Zaker on May 12th in which he informed me about the fact that both General Zaker and my letters to you are in clear view about our step on April 8th at Cockade Farms.

I have the other day a letter from General Zaker who expressed again his anxiety about a possible meeting with a representative of the CIA. According to this it would be needed owing to many important facts and details which should not pass on in correspondence and which would be necessary for the picture he wants to give to the CIA.

He also mentioned that he had been contacted by an American gentleman who was interested in some confidential matter. He gave no reference to the CIA or to any details which had pointed to the General was precise and didn't go into details. He believes that visiting was not your representative and would be very clear reference to a possible contact. He gave his most sincere regards and would be a personal letter here in Washington D.C.

Mr. Flannery passed your message he told me that in case any problem I should return to you. Therefore I decided to write this letter at the same time as the full report of General Zaker. It will be possible as a result of that communication can give help in the field of the operation-territory CIA.

and it would be very important for General Zaker and the fact he would be very interested if you won't mind let me know your opinion about this in a few words.

Sincerely yours,
